## PROGRESS UPDATE

*October 2010*

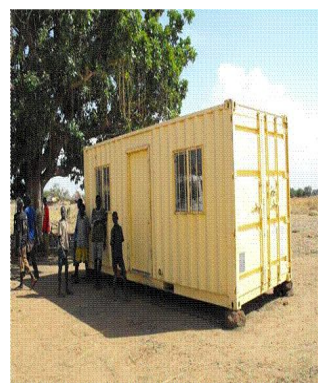

I was recently thinking that we don't have a lot of worries. We can freely go to church every week, we drive our cars to work, and we can use our second car to take the kids to and from school, sporting events and music lessons. When we're hungry we go to the fridge or pantry. When we're thirsty we get a drink from the tap. When we're sick we go to the doctor. When we're bored we can hire a movie or go out with a friend. And on top of all that we often have to take holidays, and we still get paid - we receive money for not working?? How lucky are we! We don't have a lot of real worries do we...?

In the past couple of months in Malony, Southern Sudan, hundred's of people have received medical care for the first time in their lives. Children have been given medicine to help them get well. A pastor has been visiting and leading worship, something which has never happened before. Also thanks to KAS, a second water well has been dug and is giving greater access to drinking water.

Things that we all take for granted on a daily basis are slowly being provided to this community! It is a privilege to be able to make a small difference and I am so thankful that you are on board with us, supporting and encouraging this community.

In the bible in Matthew 5:25 Jesus says "...do not worry..." Jesus says this because it is true, he will provide for us so we don't need to worry. It is great to know that he is continually using us to provide for the people of Malony, so that they won't need to worry either.

Lives have already been changed and are continuing to be changed everyday. Thanks for being part of that!

### Letter from Suzy - In Deed and In Truth....

Maloney outreaches have been very fruitful, yesterday I got to go with the kids and spend some time there. We set up the clinic and saw 85 patients. We could not get through the line of people waiting and we also had some that needed greater care. Our car is going today to collect them and bring them to the clinic here in Tonj. The Community Health Worker called Martin is doing well in his medical training. We shared the gospel and at least 20 people received Christ. We also gave health talks and shared about the borehole that is being drilled. Lots happening!!

Our truck is supposed to be arriving today, so that is exciting. Sabet also wanted to talk to you about a brick machine we have bought for our clinic here in Tonj. We think it would save you money if we use it to make bricks in Maloney. You can give us your thoughts on that.

When we got back from Maloney yesterday, we were surprised to find a note waiting for us from Malok. He said he dropped in to see if we have the cement yet. He was travelling to Juba and then Khartoum! Says he'll be back in a week.

Many blessings to you and your family. We'll take lots of pics of the borehole and I'll try and sort through the team photos and send you some.

Suzy

*\* In deed and truth are now linked on our website under 'Contact us' so check out their webpage and newsletter for more info.....*

The shipping container being sent with supplies from Adelaide to Maloney is nearly full. Thanks to all those who have contributed to this, we have recently received tools; push bikes and heaps of clothing to go with all the school and building supplies. Unfortunately we had to delay sending the container for a short time due to costs involved and the unsuitable weather in Sudan but it will be on its way before the end of October! We will keep you posted on the progress!

Thanks again to our regular financial supporters, this month we received two more weekly donators, this really helps us to budget and increase the work we are doing in Sudan. Keep it coming guys!

## NEWSLETTER

### Ways you can help!

- *Thanks to Greg who attended at our fundraising dinner, we now have a Cadbury chocolate fundraiser happening. Greg has kindly bought and donated 50 boxes of charity chocolates out of his own money for KAS to sell. If you are able to help sell a box or have one in your work place please let us know. If all sold this initiative will raise around \$2000 towards the work of KAS.*
- Continue receiving our newsletter and also passing it on to others who may be interested and able to help.
- We are always looking to increase our mailing database so our newsletters and info reach more people! If you know anyone that may be interested in receiving info from KAS drop us their email address @ [info@kingdomassignmentsudan.org.au](mailto:info@kingdomassignmentsudan.org.au) and we will add them to our mailing list.
- Buy a KAS t-shirt or gift voucher from our website. **(Give a gift that gives!)**
- Organise your own Fundraising event
- Become a weekly, fortnightly or monthly donator as this assists us with a regular income stream and enables us to do more on a regular basis. For example for just \$10 a week from four (4) people will enable us to keep the Clinical Health Worker employed
- ***As a KAS challenge perhaps round up a group of friends, family or work mates to donate a small amount each week, fortnight or month as a group! Remember no amount is too small and many small amounts = 1 large amount!***

If you would like to setup regular donations or even a once off donation contact us via the website, email or phone for more details.....and remember no amount is too small as every little bit helps!
