*"If you see something that is not right,
And you have the ability to make it right,
Then you have the responsibility
to make it right."*

Roger Brook, Chairman of KAS

The Situation

Sudan has been a country of much bloodshed since civil war broke out in the mid 1950's. Millions of Sudanese fled seeking refuge. Those who remained behind have been devastated by poverty, hunger and disease.

- 90% of people in Southern Sudan earn under \$1 a day.
- 1 in 9 women will die during childbirth.
- 1 in 4 children under the age of 2 will die due to malnutrition and preventable disease.
- Only 1 in every 100 children have the chance to go to school and receive an education. This number is even lower for girls and orphans.

The 2005 peace agreement will allow the Southern Sudanese to begin the process of independence and start to rebuild their nation.

Building a Better Future

Kingdom Assignment Sudan is partnering with the Malony community in the region of Tonj. This isolated community wants to build a new future and has taken the initiative to build a road so that help can come.

Together we will build a school, a health clinic and a church that will be self sustainable in ten years.

Your contribution will help us reach our goal to have completed these life changing facilities by the end of 2010.

*The generation that will go to the Church
The generation that will go to the school
The generation that will benefit through the health services will be truly blessed.
-(Elders of the Malony Community of Tonj)-*

Who Are We?

Kingdom Assignment Sudan (KAS) was formed by a group of people who wanted to bring hope to the people of Southern Sudan.

Personal stories from Sudanese Australians led us to want to help them rebuild the communities they had left.

With our initial seed funding behind him Malok has now returned to the Tonj region to prepare for the project. His community has already begun making bricks that will help build these facilities.

To extend beyond these first steps we need to raise \$500,000 over the next 3 years.

We welcome your generous donation to bring a new hope and a new future to the Malony community of Southern Sudan.
